27 AUG 1969

MEMORANDUM FOR: Chief, Building Planning Staff

Dear Ken:

1. I note an interesting observation in item 4 of your Weekly Report of 18 - 22 August 1969. I make specific reference to the following language:

25X1A9a [REDACTED] wants to be sure that one alternative considered by the BPS is the possibility of placing any further construction at a distance from Washington. He believes that this would be far more palatable to even our friends in Congress."

2. I would appreciate it if, soon after you return from leave, you would drop up and fill me in more specifically on the matter John 25X1A9a [REDACTED] raises. If his motivation is only tactical, i.e., to show a congressional committee we considered the alternative and refused it, then I have no quarrel. If he has any other motivation we had better get it surfaced immediately in order to size the problem.

[REDACTED]  
Acting Director of Logistics

25X1A9a
